

Lyrics:

Big Magic Party

(He is back in town
Don't you ever let him down
He's the greatest lover
He does it like no other
He has got the magic voice
Mysterious and curious
Don't you talk
Don't, don't you, don't you talk
He's got the best voice)

(He's got the magic voice,
mysterious and curious
He is the best choice
He's got the best wand)

Come on y'all, just move your feet
You let the music take control
Rock the beat
Everybody on the dance floor
Big magic party

Look around and what you see
All the people watching street
It's time for provocation now
Let them see what's under eyes

In front of is horizon
Earth and sky make wild free shameless love oh
They do child blizzard from wind and dust
We're toys so let's play
Before they play us

Come on y'all, just move your feet
Everybody on the dance floor
You let the music take control

I don't know what's going on
But I don't care
Who cares when
Whole the World is just for me
I feel the power like ecstasy pill
Look around and what you see
All the colours dance in melody
Devil's got a kiss from angel
It's not a sin but it's forgiveness

In front of is horizon
Earth and sky make wild free shameless love
They do child blizzard from wind and dust
We're toys so let's play
Before they play us

Come on y'all, just move your feet
You let the music take control
Everybody on the dance floor
Big magic party

Who You Are

Quiet voices in your head
Deeply disturbing privileges
Couple of jabs to fix your health
Stultifying social trends
Power religions and climate change
Censored words that can't be said
Don't let them get you silenced
Kill them with your marvelousness

Show them what you love
Show them who you are

Midnight Smoke

Hello night, my mistress
Another day gone, another chance missed
But you show me stars
And give shelter to my scars

Softly, gently, music shall caress you
From me to you
Hear it, feel it
Secretly possess you

Sometimes the only comfort comes from sleep
Good night, my troubled mind

My

Wciąż może być tak pięknie
Asy trzy chowam w rękawie
Ostatniego dzierzysz ty

My
Na tratwie naszych marzeń
Miłość naszym żaglem
My
U progu naszych dni
Choc lekko znudzeni
Wciąż jeszcze zieleni
My

Chcę zbadać cały świat
By uchronić nas od wad
Bo nic nie jest tak
Doskonałe jak my

My

Jesteśmy świata podstawą
Gdy jesteśmy razem
Jak dwa anioły
Trzymamy świat
Naszemu synowi

My

Obraz Mój

Obraz mój niczym szkło
Krzywe lustro w ścianie luster
Niczym grzech skryty gdzieś
W toni ustępst w gradzie łez

Odważ się zgrzeszyć tak
By w piekelnym ogniu piec
Swą duszę na ruszcie jak kurczak

Obraz mój niemy relikw
W ciasnej ramie gdzieś na ścianie
Pełen wad pełen skaz
Monalisa pośród dam

Upraszam się podziwił mnie...

Ciesz cię koloryst mój
Odwracasz głowę mijasz mnie
Gdy jeden bok skrzywił się
Restaurujesz gdy nie pasują do twych wnętrz

Pozwol mi zawisnąć tak
By w pokoju resztki życia
Schowały się

Pondering

We have met by accident
Both growling for fulfilment
We were rad when it last
And then forget about experience
Every time we had much fun
And it was cool and so mysterious
But I let you slide too deep inside
Now I wonder can it be more serious

Who am I for you tonight?
Will I matter when the moon gives its way to
the sun?

Suddenly I care about you
I am ready to offer more
Love is blunt, but I can make it work
Meet me in the morning light
Let's enjoy a little more
Together, we can defeat our storms

Like I said I start to care
I didn't mean it but it happened
Secret meets short messages
Imagination heightened

Who am I for you tonight
Will it matter when the moon gives its way to
the sun

Suddenly I care about you
I am ready to offer more
Love is blunt but I can make it work
Meet me in the morning light
Let's enjoy us little more
Together, we can defeat our storms
'Cause we can overcome our storms

Suddenly I care about you
I am ready to offer more
Love is blunt, but I can make it work
Meet me in the morning light
Let's enjoy a little more
Together, we can defeat our storms

Suddenly I care about you
I am ready to offer more
Love is blunt but I can make it work

Water Nymph

The night is still young and
It's time for some darkness for me
Dance for me, show me the path
The waters are low
Elevate mopping stove
rain on me, bless all me
Love show me, provide me
Anything I'd take from you

The waters are low
Let it rain for some more
Aim for me, swain call me
Call for me, I'll owe you
Anything you take from me
